Subject: Re: Time to talk this morning?

Dave - I expect to be out much of next week. I think you can pull information from the L: drive to deal with #s 3-5, in case some kind of a response is needed regarding any of these issues.

Subject: Time to talk this morning?

Do you have time to talk this morning (8:30-9:00 AM)? We have been asked to provide info in advance of any ORD/USGS Sr Mgmt meeting on Pavillion. I know that most of the items have been prepared at sometime in the past, but wanted to get this on your radar. I expect they'll be asking for things fairly soon (before July 4th).

1. EPA's protocol--in writing--for sampling low yield wells (SF? ORD?);
2. the rationale for the sampling approach used, particularly the low flow well (MW02);
3. our results;
4. the analytical methods used (validation issues); and
5. QA status.
